### bio / artist information

Their first album of all originally-written music in more than eight years, The Kentucky HeadHunters take a look at where they were, where they are and where they're headed on *Dixie Lullabies*.

The multi-platinum Grammy-winning HeadHunters has been touring constantly with massive hits like "Dumas Walker", "Walk Softly On This Heart of Mine" and "Oh Lonesome Me," and on *Dixie Lullabies* they remain true to themselves, blending elements of Blues, Country, English Rock, Rockabilly, Jazz, and, of course, Southern Rock.

"Facts is facts," wrote esteemed writer Holly Gleason in a recent column for NoDepression. "The Kentucky Headhunters are a great rock band, filtered through the British/blues-based rock and roll of the Yardbirds, The Who, Led Zeppelin, Cream, Frankie Miller, and Long John Baldry. Twenty years after being the biggest thing there was, it appears the Kentucky HeadHunters are on the verge of being what they were meant to be: a slamming rock/roots band that fears no corner at any speed. Like the old blues guys, they ain't afraid to sweat or make it moan. We should all take that lesson to heart."
